The undersigned certifies and swears that he/she has just and reasonable grounds to believe, and does believe, that the above-named Defendant committed the following violation of law. The Person taken into custody...

- committed the below acts in my presence.
- confessed to, admitting to the below facts.
- was observed by who told .
- was found to have committed the below acts, resulting from my investigation.

On April 15th, 2026 at approximately 2217 hours, I responded to the intersection of Calliandra Drive and Fox Trail Trace, Boynton Beach, FL. 33436 in reference to a battery that had just occurred.

When I arrived on scene, I made contact with a male identified by Georgia Driver's License as Robert Price. Robert had a large abrasion on his left arm that extended all the way from his wrist to his elbow. I also observed a Gray Tesla Model 3 (bearing FL Tag #05GCPA) whith extensive damage to the driver's door, near the handle. The driver's side window was also shattered, being held in place by the tint. It was later determined that the damages and cost for labor to restore the vehicle to its original condition prior to this incident well exceeds over \$1000.

Robert provided me a sworn statement that was captured on my body-worn camera stating the following (not verbatim): Robert is a "Lyft" driver and was driving Westbound on Fox Trail Trace to pick up a customer. Price stated that while driving Westbound, he almost got into a collision with pedestrians in the roadway. Robert assured me that he swerved out of the way to avoid colliding with them, when they began to yell profanities at him. Robert stated that then continued down the street to pick up the "Lyft" customer, when the subjects then began to yell again. Robert believes that they were telling the customer to not get into the vehicle with him due to the incident that had just occurred. Robert then turned his vehicle around in the cul-de-sac, now facing Eastbound to leave when one of the subjects grabbed a trash can and threw it directly at

Agency Case No.: 26052006	

the driver's side of the Tesla. The trashcan made contact with Robert's left arm, resulting in the above mention injuries and damage to the vehicle. Robert stated that he then left the area and called 911.

Robert described the subject who threw the trash can as a white male, approximately 6'00 tall, wearing a light colored shirt, dark slacks. Robert also added that the male had a mustache and goatee.

PBSO dispatch then received a 911 call from subjects who provided the names of John Walsh and Michelle Walsh. The subjects advised PBSO dispatch that a Tesla had swerved and almost hit them while walking in the neighborhood. CAD Notes from PBSO dispatch stated that the caller "had placed a trash can between him and his wife." The 911 caller also provided the tag #05GCPA, confirming that the call was related to this same incident.

I then relocated to 4299 Fox Trail Trace to make contact with the 911 caller. Upon arrival, a female, later identified as Michelle Walsh, exited the residence and began to make claims that an Uber driver had intentionally tried to run her over. While speaking with Michelle, her husband identified as John Walsh, and another male identified as Ralph Khouri exited the residence. Let it be noted that John is a white male, approximately 6'00 tall, wearing a light colored shirt, dark slacks, with a mustache and a goatee (the same description given by the victim). I asked Ralph, Michelle, and John what had happened involving a trash can. Ralph interjected claiming there was no trash can involved, despite John stating he "put the trash can in front of the car" on the recorded 911 call. When I confronted the group about the damage to the vehicle and the injury to the victim's arm, Ralph, Michelle, and John became argumentative and uncooperative. I asked if I could see the trashcan to check for damages for the purposes of dispelling my suspicions about the incident and all three subjects, again became argumentative. John (the suspect) then repeated that the driver had intentionally tried to run him over, without providing any information regarding motive or intent. John claimed that he had "jump out of the way."

Michelle then asked if I could speak to her privately. Michelle and I took a few steps away from the group and I explained to her that there was extensive damage on the Tesla and injury to victim's arm. I also explained to Michelle that Tesla's have multiple cameras that have 360 degree coverage. At no time did I state that I was in possession of or had viewed any footage of the incident. I then re-approached John, asking for his Driver's License. Michelle then approached him and told him: "he's got video footage." John then repeatedly spontaneously uttered: "I was defending myself."

Upon reviewing the 911 calls from this incident, John stated: "...I went up to him and the put the trash can in front of the car, and he swerved around it and tried to go after my wife..." Based on the damage to the vehicle, it is not only improbable, but impossible for it have occurred from any means other than direct impact to the driver's door which is inconsistent with John's account of the incident. Despite John claiming on scene that the driver of the Tesla had "used his vehicle as a weapon" he chose to re-engage conflict with the driver as they were exiting the neighborhood. Due to the deliberate attempt by John and the other witnesses on scene to intentionally omit the involvement of the trashcan on scene hindering my investigation, the inconsistencies between the statements provided, and the physical evidence I observed, it is apparent that this incident was not a matter self-defense, but rather an intentional act to cause harm and loss.

On May 1st, 2026, I met with Robert to conduct a photo line-up. A photo line-up was administered to Robert by Deputy Scollo #45181 who had no knowledge of the case. Robert positively identified John Walsh as the person who threw the trash can at his vehicle causing the above mentioned damages and injury.

Agency Name: Palm Beach County Sheriff's Office	eWarrant No.: PBSO 2026 004461
Agency Case No.: 26052006	

Based on the results of my investigation, probable cause exists to charge John Walsh with following violations of Florida State Statute:

- FSS 806.13(1)(b)(3) Criminal Mischief Damage Property \$1000+
- FSS 784.03(1)(a)(1) Battery – Touch or Strike
